

## Jagger 23.2 Change Highlights

### ShopUW+ UI Changes

- Search Experience for Supplier & Contracts toggle button – you can now toggle between the new and classic search experience. Located in the bottom right corner of some screens.

- You can now cancel returned invoices – NOTE – there is no warning message that this will delete a returned invoice except for the pop up when you hover over the icon. Please use with caution! This is only for draft and returned invoices.
